

OBJECTIVE

Assume the role of Dr. Fink as you attempt to create potions, score points, and meet quotas by combining various vials with various flask. (see potion chart)

In the lab be sure to switch about your vials as you attempt to maximize and combine your vial contents with the flask contents moving below. Certain combos reward well, others not so much (BOOM!) Be careful not to lose points by ignoring or missing pours, on the other hand create 3 "gold" potions in a row and receive a large bonus. As you progress in the game be sure to note the changing ingredients, line speed, time limits, and invoice quotas!
